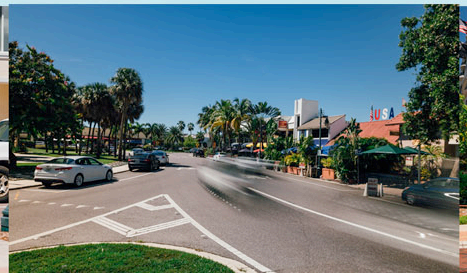
Citywide Transportation Master Plan

Phase One Update

September 16, 2019

ADEASQ
TRANSPORTATION ENGINEERING + PLANNING



INTRODUCTION

- Summarize Phase One Input
- Share Public Feedback and Observations
- Public Survey Results
- Identify Performance Measures
- Upcoming Milestones

SUMMARY OF PARTICIPATION

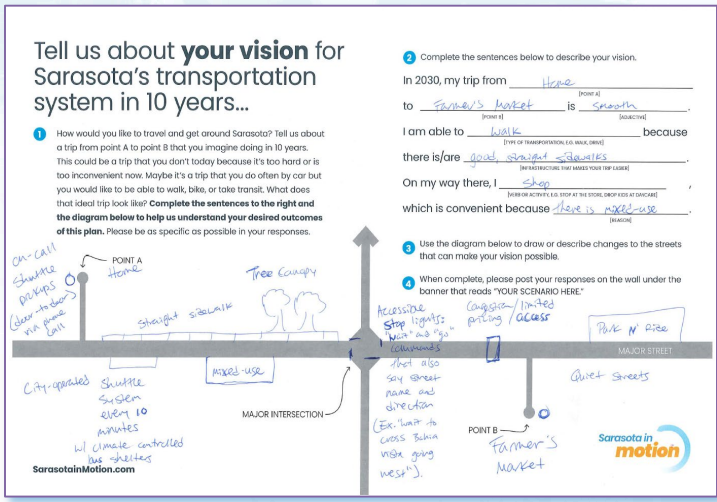
- 1 agency workshop with state, regional, & local partners
- 2 public workshops
- 5 Pop-up events (festivals, summer camps, markets, etc.)
- 758 survey respondents
- 1,228 unique website users

SUMMARY OF PARTICIPATION

One of two public visioning meetings conducted on June 4, 2019

Scenario Planning Exercise

Example Completed Scenario Worksheet



Tell us about **your vision** for Sarasota's transportation system in 10 years...

1. How would you like to travel and get around Sarasota? Tell us about a trip from point A to point B that you imagine doing in 10 years. This could be a trip that you don't today because it's too hard or is too inconvenient now. Maybe it's a trip that you do often by car but you would like to be able to walk, bike, or take transit. What does that ideal trip look like? **Complete the sentences to the right and the diagram below to help us understand your desired outcomes of this plan.** Please be as specific as possible in your responses.

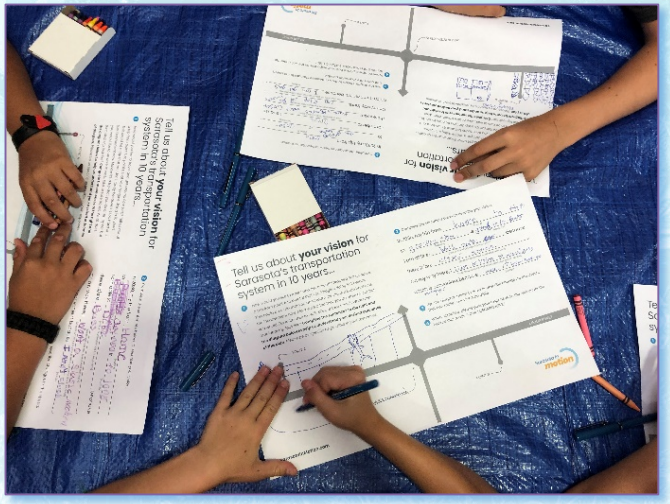
2. Complete the sentences below to describe your vision.

In 2030, my trip from Home [POINT A]
to Farmer's Market [POINT B] is smooth [ADJECTIVE].
I am able to walk [TYPE OF TRANSPORTATION; E.G. WALK, DRIVE]
because there is/are good, straight sidewalks [INFRASTRUCTURE THAT MAKES YOUR TRIP EASIER].
On my way there, I shop [VERB OR ACTIVITY; E.G. STOP AT THE STORE, DROP KIDS AT DAYCARE],
which is convenient because there is mixed-use [REASON].

3. Use the diagram below to draw or describe changes to the streets that can make your vision possible.

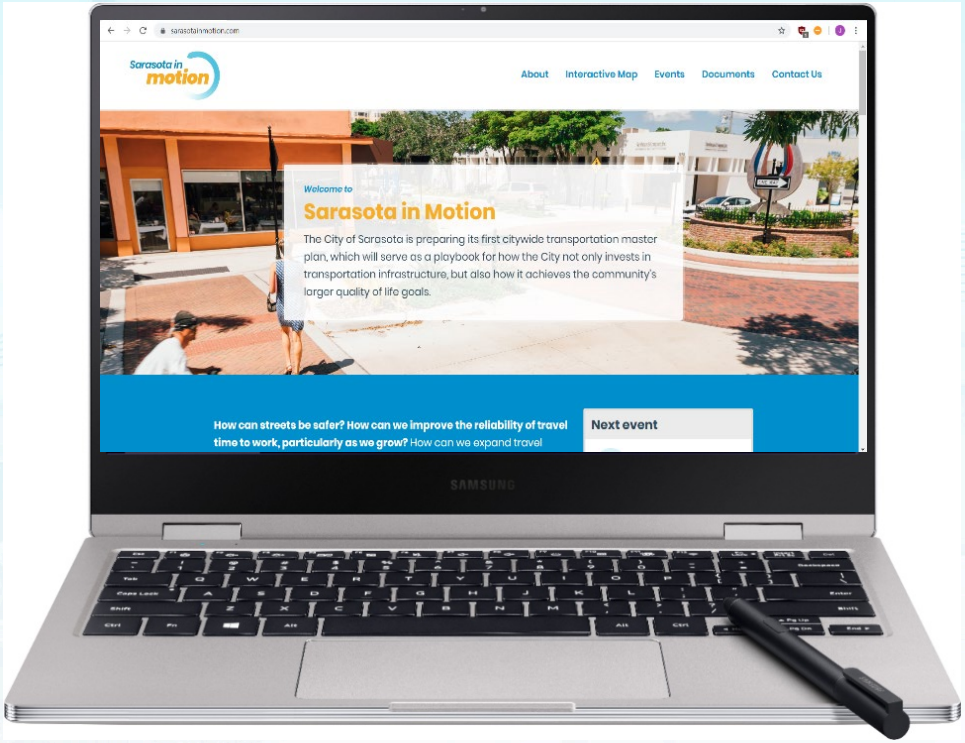
4. When complete, please post your responses on the wall under the banner that reads "YOUR SCENARIO HERE."

SUMMARY OF PARTICIPATION



HOW TO REACH US

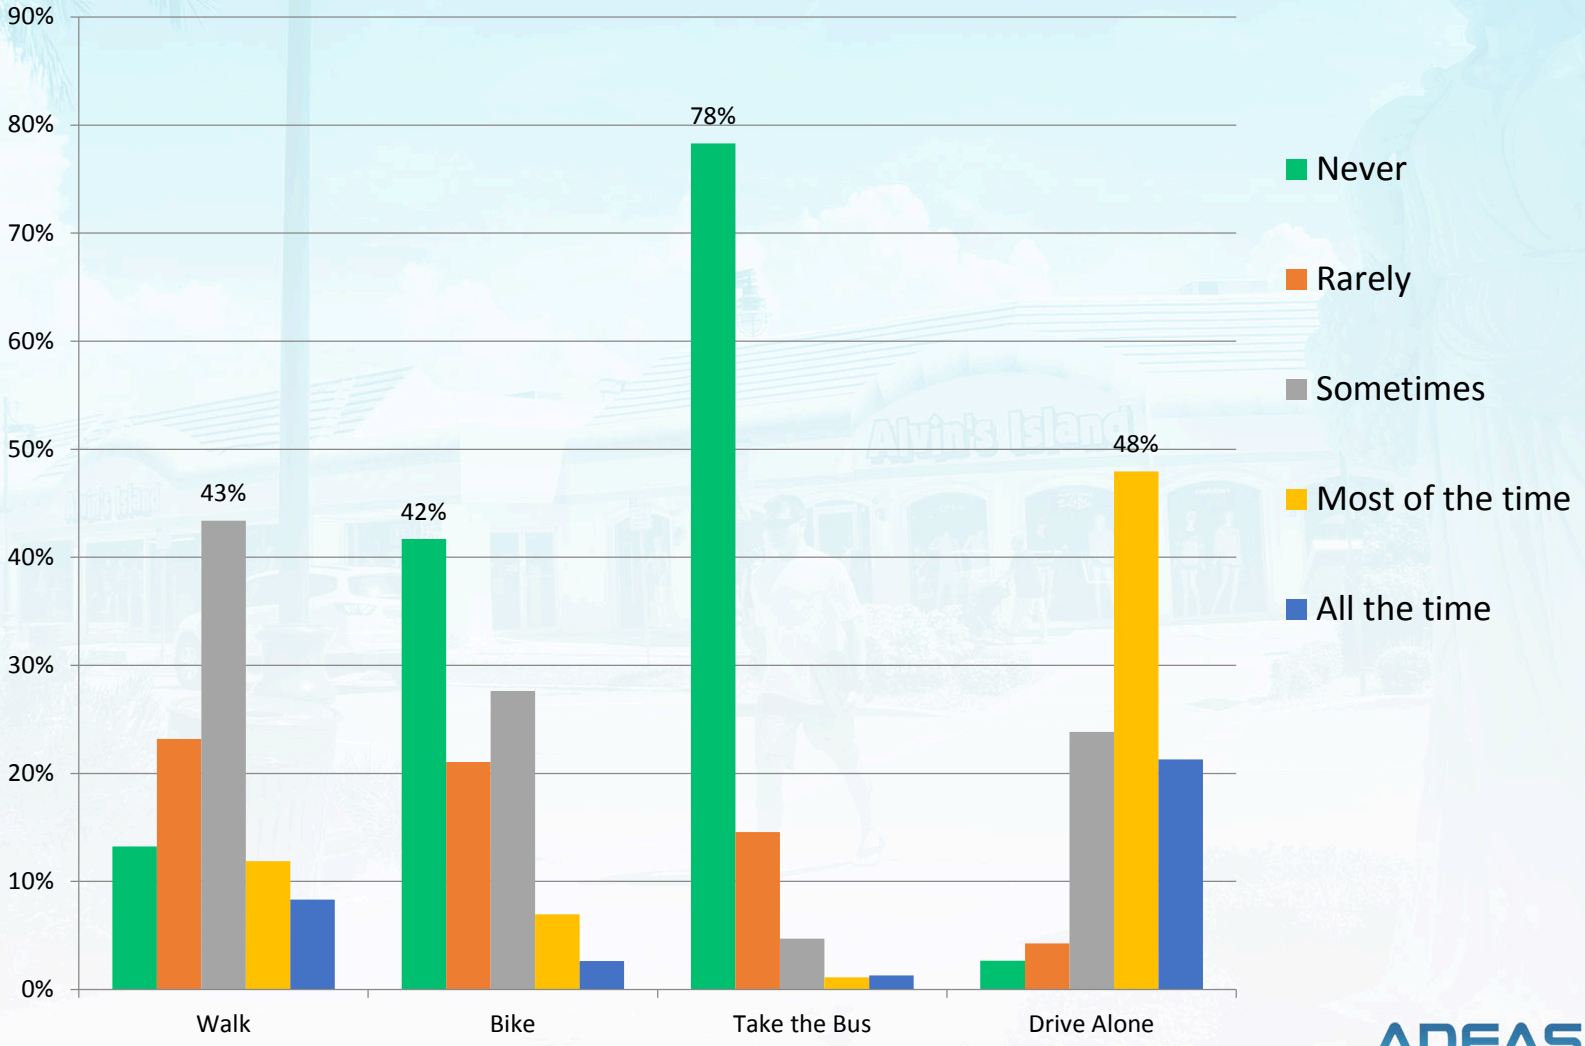
Website: www.sarasotainmotion.com



Email: sarasotainmotion@sarasotafl.gov

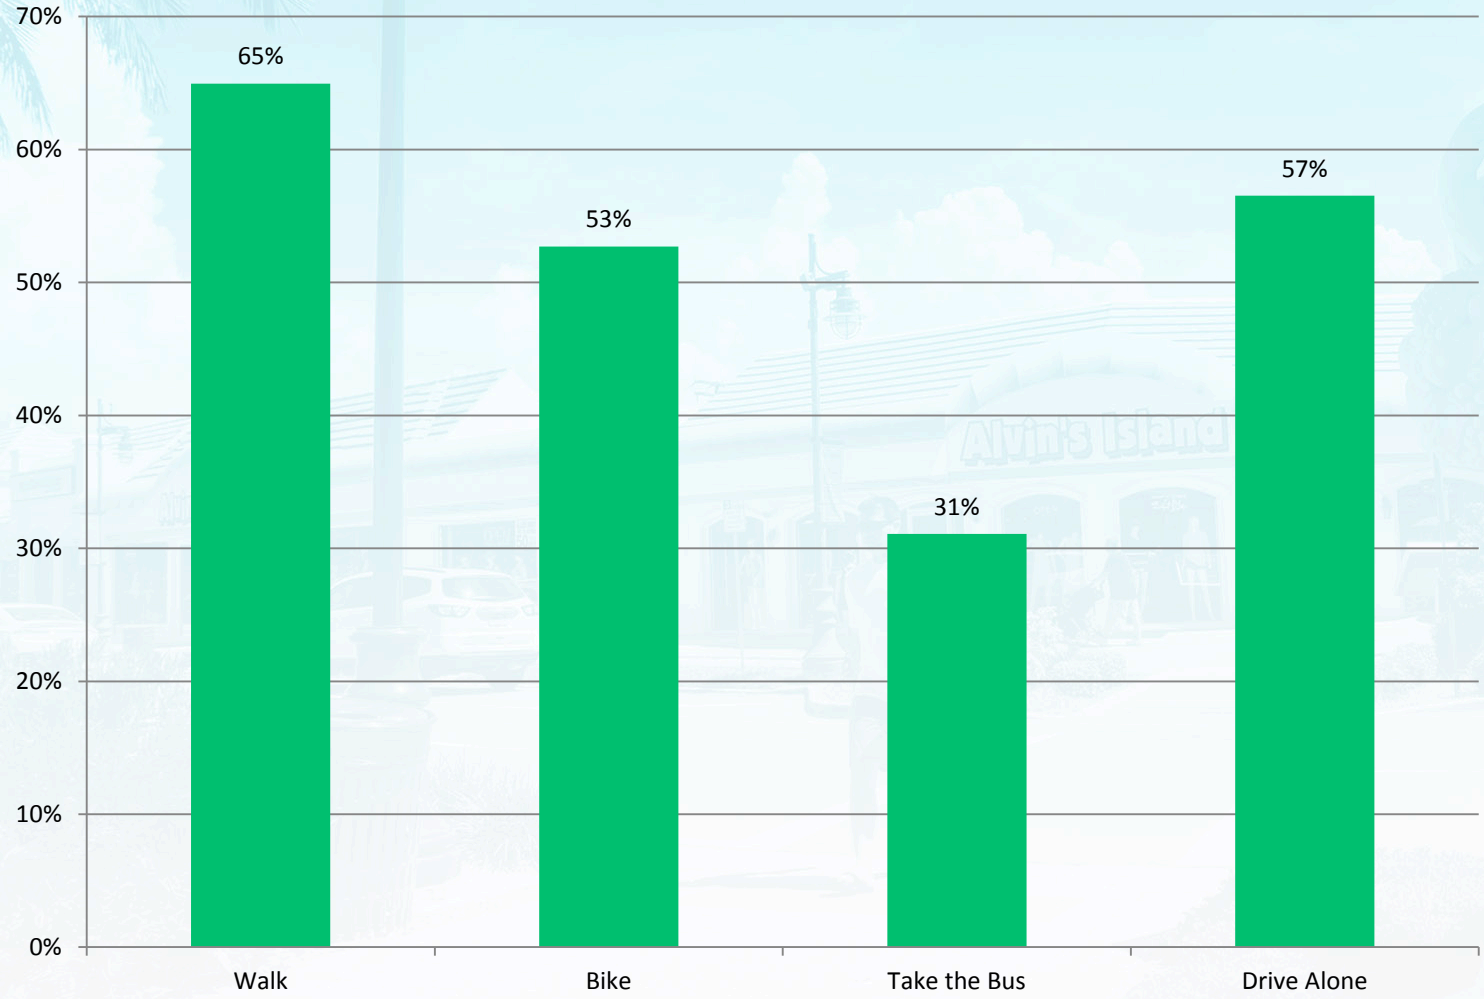
SURVEY RESULTS

How often do you make trips by walking, biking, taking the bus, and driving?

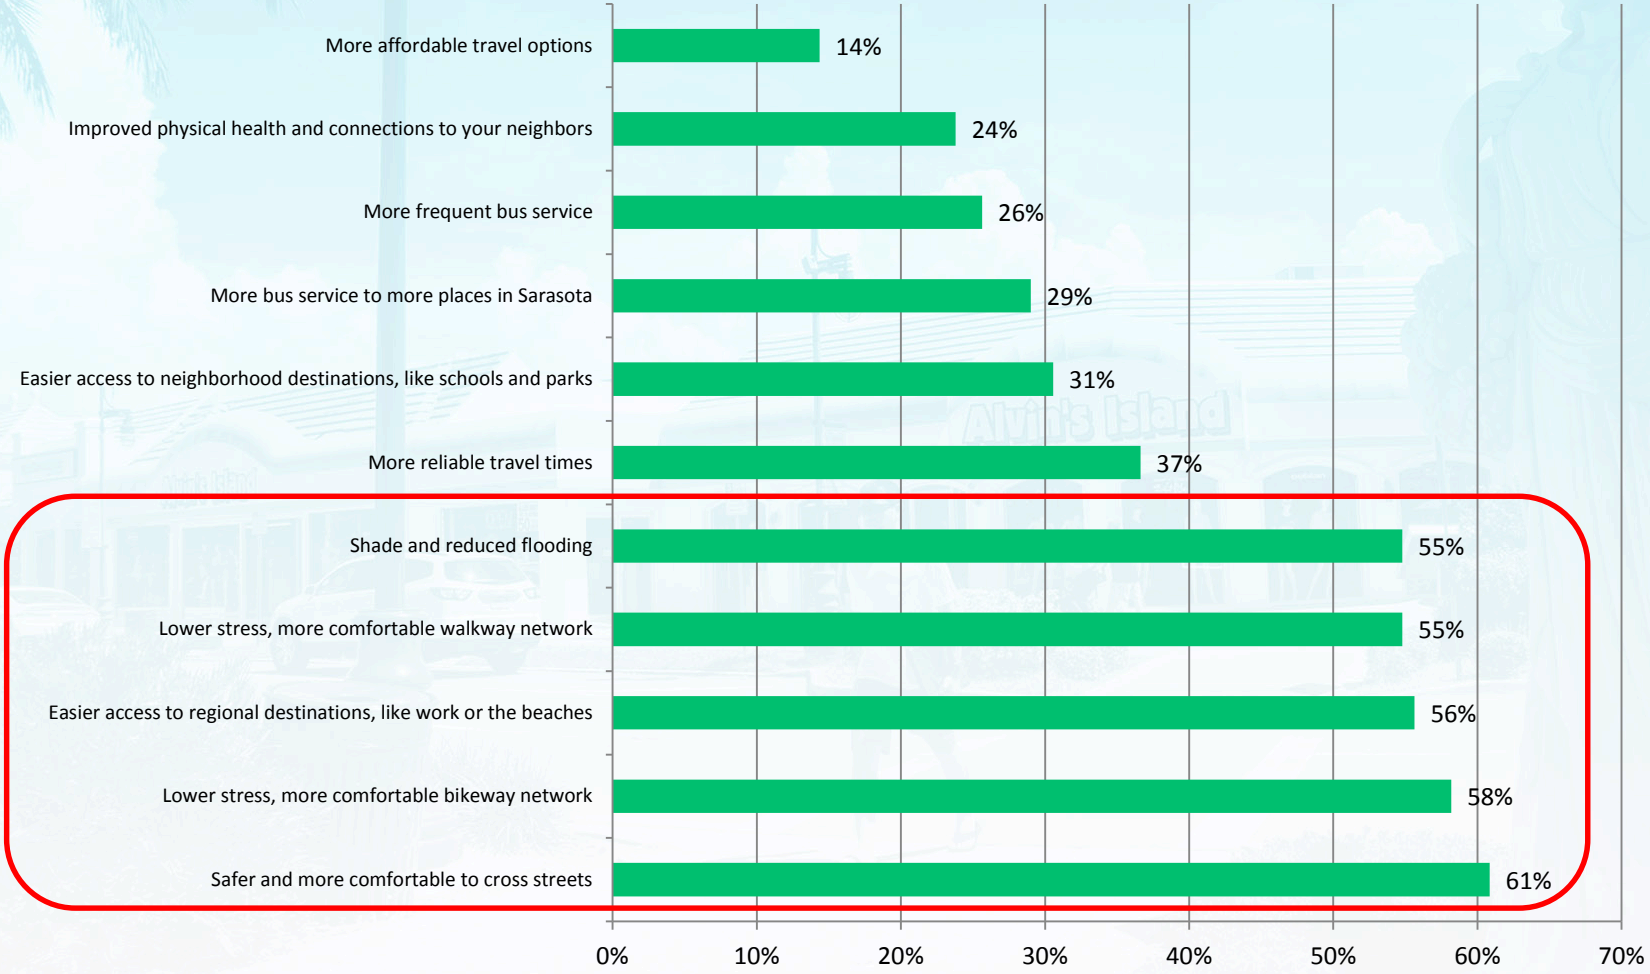


SURVEY RESULTS

How do you *WANT* to move to/from and around Sarasota? (Check all that apply)



Which of the following outcomes are most important to you?



Summary of Themes

- Create safe streets for all users, especially bikers
- Create realistic choices beyond single-use automobiles
- Neighborhood level investments, be transparent
- Be future ready for transportation technology
- Align transportation with responsible development growth
- Prepare for and mitigate potential impacts of climate change

PERFORMANCE MEASURES

VISION

Sarasota is a safe and **active** community with **safe** streets and **real transportation choices**

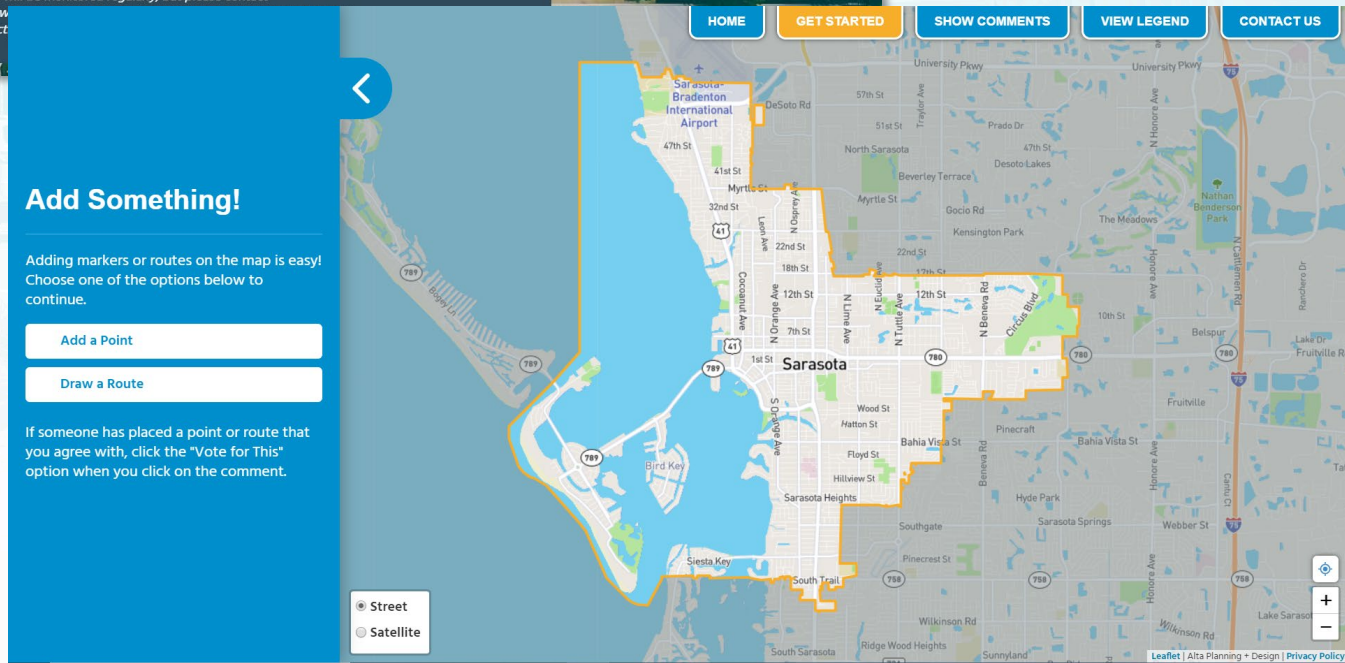
VALUES

- *Action* – see positive change in neighborhoods
- *Active* – people are physically active in daily routine
- *Diverse Transportation Choices* - mobility options that are convenient, attractive, and reliable beyond driving
- *Resilient* - reduce contribution to climate change and adapt to impacts
- *Safe* – confidence in wanting to use other modes

UPCOMING MILESTONES

- Existing Conditions Assessment
- Interactive Project Map
- Next public workshops October 22
- Compile and evaluate suggestions received
- Develop a priority list of actions, programs, projects, etc.

INTERACTIVE MAP



BICYCLE AND PEDESTRIAN PLAN

- From 2016 Comprehensive Plan Update effort
- Significant public involvement effort to develop
- Consistent with feedback received thus far in Master Plan
- Current need for adoption now
- Improves chances for state/federal grants with adoption
- Can and will be refined during Master Plan
